Timeless Aroma.  
**Eternal Peace.**

# About Us

At PUSHK KAMAL, we believe that fragrance has the power to transform spaces, uplift the spirit, and connect us to something greater. Rooted in tradition and crafted with care, our incense products are more than just aromatic — they are an invitation to mindfulness, peace, and balance.

Rooted in ancient traditions and guided by divine intention, each product is manufactured using modern technology and natural ingredients, carefully selected for their purity and potency. We manufacture incense products with natural resins, herbs, and oils that carry the vibration of purity, balance, and healing. Whether for meditation, prayer, or daily rituals, our incense is made to sanctify space and invite stillness into your life. Whether you seek calm, clarity, or a sense of sacred ritual, our fragrances are designed to support your journey within.

With a commitment to quality, sustainability, and authenticity, Pushp Kamal Agarbatti offers more than a product — we offer an experience.

# Our Story

Our story is one of devotion, tradition, and spiritual service that spans generations.

Since 1985, our family has been deeply rooted in the sacred trade of incense sticks, offering handpicked fragrances to seekers, temples, and homes across the country. For decades, we cultivated trust, nurtured relationships, and grew in understanding of the profound connection between scent and the soul.

**In 2020, this legacy evolved into something even more personal — the birth of our own manufacturing journey under the name SHRI HARIKRUPA FRAGRANCE, a registered trademark that honours both our spiritual foundation and the blessings that carried us forward.**

Our journey began with a simple intention: to bring the timeless art of incense-making into the modern world without losing its soul.

Born from a deep reverence for **Vedic wisdom and spiritual traditions from across the world**, **PUSHP KAMAL AGARBATTI was founded in 2024** by our third generation as an offering to the divine and a gift to the seekers of stillness. Every incense stick is a prayer in motion — shaped by human hands, guided by intuition, and blessed with intention. We work with local artisans and use ethically sourced ingredients — resins, herbs, essential oils, and wood powders — to create blends that resonate with tradition and touch the senses.

**Every fragrance tells a story. Every stick is a prayer of intention. And every box you open carries with it the essence of our purpose: to help you breathe, reflect, and reconnect.**

**This is not just incense. This is our heritage — now shared with you.**
